

COURSE OUTCOMES

B.Sc Nursing (SEMESTER)

COMMUNICATIVE ENGLISH

On completion of the course, the students will be able to

CO 1: Identify the significance of Communicative English for healthcare professionals.

CO 2: Demonstrate attentive listening in different hypothetical situations.

CO 3: Converse effectively, appropriately and timely within the given context and the individual or team they are communicating with either face to face or by other means.

CO 4: Read, interpret and comprehend content in text, flow sheet, framework, figures, tables, reports, anecdotes etc.

CO 5: Analyze the situation and apply critical thinking strategies.

CO 6: Enhance expressions through writing skills.

CO 7: Apply LSRW (Listening, Speaking, Reading and Writing) Skill in combination to learn, teach, educate and share information, ideas and results.

APPLIED ANATOMY

On completion of the course, the students will be able to

CO 1: Describe anatomical terms.

CO 2: Explain the general and microscopic structure of each system of the body.

CO 3: Identify relative positions of the major body organs as well as their general anatomic locations.

CO 4: Explore the effect of alterations in structure.

CO 5: Apply knowledge of anatomic structures to analyze clinical situations and therapeutic applications.

APPLIED PHYSIOLOGY

On completion of the course, the students will be able to

CO 1: Develop understanding of the normal functioning of various organ systems of the body.

CO 2: Identify the relative contribution of each organ system towards maintenance of homeostasis.

CO 3: Describe the effect of alterations in functions.

CO 4: Apply knowledge of physiological basis to analyze clinical situations and therapeutic applications.

APPLIED SOCIOLOGY

SRI SHANMUGHA COLLEGE OF NURSING FOR WOMEN

Approved by Government of Tamilnadu & TNNMC, Approved by Indian Nursing Council, New Delhi

Affiliated to The Tamilnadu Dr. M.G.R Medical University, Chennai

Sankari- Tiruchengode Main Road, Pullipalayam, Morur (Po), Sankari(Tk), Salem (dt), Tamilnadu, Pin- 637304

E-mail : principalsrihanmughacon@gmail.com | info@shanmughanursing.edu.in

www.shanmughanursing.edu.in | Phone : 04283 262925, 261899, 262922

On completion of the course, the students will be able to

CO 1: Identify the scope and significance of sociology in nursing.

CO 2: Apply the knowledge of social structure and different culture in a society in identifying social needs of sick clients.

CO 3: Identify the impact of culture on health and illness.

CO 4: Develop understanding about types of family, marriage and its legislation.

CO 5: Identify different types of caste, class, social change and its influence on health and health practices.

CO 6: Develop understanding about social organization and disorganization and social problems in India.

CO 7: Integrate the knowledge of clinical sociology and its uses in crisis intervention.

APPLIED PSYCHOLOGY

On completion of the course, the students will be able to

CO 1: Identify the importance of psychology in individual and professional life.

CO 2: Develop understanding of the biological and psychological basis of human behaviour.

CO 3: Identify the role of nurse in promoting mental health and dealing with altered personality.

CO 4: Perform the role of nurses applicable to the psychology of different age groups.

CO 5: Identify the cognitive and affective needs of clients.

CO 6: Integrate the principles of motivation and emotion in performing the role of nurse in caring for emotionally sick client.

CO 7: Demonstrate basic understanding of psychological assessment and nurse's role.

CO 8: Apply the knowledge of soft skills in workplace and society.

CO 9: Apply the knowledge of self-empowerment in workplace, society and personal life.

NURSING FOUNDATION - I (including First Aid module)

On completion of the course, the students will be able to

CO 1: Develop understanding about the concept of health, illness and scope of nursing within health care services.

CO 2: Apply values, code of ethics and professional conduct in professional life.

CO 3: Apply the principles and methods of effective communication in establishing communication links with patients, families and other health team members.

CO 4: Develop skill in recording and reporting.

CO 5: Demonstrate competency in monitoring and documenting vital signs.

CO 6: Describe the fundamental principles and techniques of infection control and biomedical waste management.

CO 7: Identify and meet the comfort needs of the patients.

CO 8: Perform admission, transfer, and discharge of a patient under supervision applying the knowledge.

SRI SHANMUGHA COLLEGE OF NURSING FOR WOMEN

Approved by Government of Tamilnadu & TNNMC, Approved by Indian Nursing Council, New Delhi

Affiliated to The Tamilnadu Dr. M.G.R Medical University, Chennai

Sankari- Tiruchengode Main Road, Pullipalayam, Morur (Po), Sankari(Tk), Salem (dt), Tamilnadu, Pin- 637304

E-mail : principalsri Shanmughacon@gmail.com | info@shanmughanursing.edu.in

www.shanmughanursing.edu.in | Phone : 04283 262925, 261899, 262922

CO 9: Demonstrate understanding and application of knowledge in caring for patients with restricted mobility.

CO 10: Perform first aid measures during emergencies.

CO 11: Identify the educational needs of patients and demonstrate basic skills of patient education.

CLINICAL PRACTICUM

On completion of the clinical practicum, the students will be able to

CO 1: Maintain effective human relations (projecting professional image)

CO 2: Communicate effectively with patient, families and team members

CO 3: Demonstrate skills in techniques of recording and reporting

CO 4: Demonstrate skill in monitoring vital signs

CO 5: Care for patients with altered vital signs

CO 6: Demonstrate skill in implementing standard precautions and use of PPE

CO 7: Demonstrate skill in meeting the comfort needs of the patients

CO 8: Provide safe and clean environment

CO 9: Demonstrate skill in admission, transfer, and discharge of a patient

CO 10: Demonstrate skill in caring for patients with restricted mobility

CO 11: Plan and provide appropriate health teaching following the principles

CO 12: Acquire skills in assessing and performing First Aid during emergencies.

APPLIED BIOCHEMISTRY

On completion of the course, the students will be able to

CO 1: Describe the metabolism of carbohydrates and its alterations.

CO 2: Explain the metabolism of lipids and its alterations.

CO 3: Explain the metabolism of proteins and amino acids and its alterations.

CO 4: Explain clinical enzymology in various disease conditions.

CO 5: Explain acid base balance, imbalance and its clinical significance.

CO 6: Describe the metabolism of hemoglobin and its clinical significance.

CO 7: Explain different function tests and interpret the findings.

CO 8: Illustrate the immunochemistry.

APPLIED NUTRITION AND DIETETICS

On completion of the course, the students will be able to

- CO 1: Identify the importance of nutrition in health and wellness.
- CO 2: Apply nutrient and dietary modifications in caring patients.
- CO 3: Explain the principles and practices of Nutrition and Dietetics.
- CO 4: Identify nutritional needs of different age groups and plan a balanced diet for them.
- CO 5: Identify the dietary principles for different diseases.
- CO 6: Plan therapeutic diet for patients suffering from various disease conditions.
- CO 7: Prepare meals using different methods and cookery rules.

NURSING FOUNDATION - II (including Health Assessment

Module)

On completion of the course, the students will be able to

- CO 1: Develop understanding about fundamentals of health assessment and perform health assessment in supervised clinical settings
- CO 2: Demonstrate fundamental skills of assessment, planning, implementation and evaluation of nursing care using Nursing process approach in supervised clinical settings
- CO 3: Assess the Nutritional needs of patients and provide relevant care under supervision
- CO 4: Identify and meet the hygienic needs of patients
- CO 5: Identify and meet the elimination needs of patient
- CO 6: Interpret findings of specimen testing applying the knowledge of normal values
- CO 7: Promote oxygenation based on identified oxygenation needs of patients under supervision
- CO 8: Review the concept of fluid, electrolyte balance integrating the knowledge of applied physiology
- CO 9: Apply the knowledge of the principles, routes, effects of administration of medications in administering medication
- CO 10: Calculate conversions of drugs and dosages within and between systems of measurements
- CO 11: Demonstrate knowledge and understanding in caring for patients with altered functioning of sense organs and unconsciousness

SRI SHANMUGHA COLLEGE OF NURSING FOR WOMEN

Approved by Government of Tamilnadu & TNNMC, Approved by Indian Nursing Council, New Delhi

Affiliated to The Tamilnadu Dr. M.G.R Medical University, Chennai

Sankari- Tiruchengode Main Road, Pullipalayam, Morur (Po), Sankari(Tk), Salem (dt), Tamilnadu, Pin- 637304

E-mail : principalsrihanmughacon@gmail.com | info@shanmughanursing.edu.in

www.shanmughanursing.edu.in | Phone : 04283 262925, 261899, 262922

CO 12: Explain loss, death and grief

CO 13: Describe sexual development and sexuality

CO 14: Identify stressors and stress adaptation modes

CO 15: Integrate the knowledge of culture and cultural differences in meeting the spiritual needs

CO 16: Explain the introductory concepts relevant to models of health and illness in patient care

CLINICAL PRACTICUM

On completion of the course, the student will be able to

CO 1: Perform health assessment of each body system

CO 2: Develop skills in assessment, planning, implementation and evaluation of nursing care using Nursing process approach

CO 3: Identify and meet the Nutritional needs of patients

CO 4: Implement basic nursing techniques in meeting hygienic needs of patients

CO 5: Plan and Implement care to meet the elimination needs of patient

CO 6: Develop skills in instructing and collecting samples for investigation.

CO 7: Perform simple lab tests and analyze & interpret common diagnostic values

CO 8: Identify patients with impaired oxygenation and demonstrate skill in caring for patients with impaired oxygenation

CO 9: Identify and demonstrate skill in caring for patients with fluid, electrolyte and acid – base imbalances

CO 10: Assess, plan, implement & evaluate the basic care needs of patients with altered functioning of sense organs and unconsciousness, Care for terminally ill and dying patients

HEALTH/NURSING INFORMATICS AND TECHNOLOGY

On completion of the course, the students will be able to

CO 1: Develop a basic understanding of computer application in patient care and nursing practice.

CO 2: Apply the knowledge of computer and information technology in patient care and nursing education, practice, administration and research.

CO 3: Describe the principles of health informatics and its use in developing efficient healthcare.

CO 4: Demonstrate the use of information system in healthcare for patient care and utilization of nursing data.

CO 5: Demonstrate the knowledge of using Electronic Health Records (EHR) system in clinical practice.

CO 6: Apply the knowledge of interoperability standards in clinical setting.

SRI SHANMUGHA COLLEGE OF NURSING FOR WOMEN

Approved by Government of Tamilnadu & TNNMC, Approved by Indian Nursing Council, New Delhi
Affiliated to The Tamilnadu Dr. M.G.R Medical University, Chennai

- CO 7: Apply the knowledge of information and communication technology in public health promotion.
- CO 8: Utilize the functionalities of Nursing Information System (NIS) system in nursing.
- CO 9: Demonstrate the skills of using data in management of health care.
- CO 10: Apply the knowledge of the principles of digital ethical and legal issues in clinical practice.
- CO 11: Utilize evidence-based practices in informatics and technology for providing quality patient care.
- CO 12: Update and utilize evidence-based practices in nursing education, administration, and practice.

APPLIED MICROBIOLOGY AND INFECTION CONTROL INCLUDING SAFETY

SECTION A: APPLIED MICROBIOLOGY

On completion of the course, the students will be able to:

- CO-1: Identify the ubiquity and diversity of microorganisms in the human body and the environment.
 - CO 2: Classify and explain the morphology and growth of microbes.
 - CO 3: Identify various types of microorganisms.
 - CO 4: Explore mechanisms by which microorganisms cause disease.
 - CO 5: Develop understanding of how the human immune system counteracts infection by specific and non-specific mechanisms.
 - CO 6: Apply the principles of preparation and use of vaccines in immunization.
- Identify the contribution of the microbiologist and the microbiology laboratory to the diagnosis of infection.

SECTION B: INFECTION CONTROL & SAFETY

On completion of the course, The students will be able to:

- CO 1: Develop knowledge and understanding of Hospital acquired Infections (HAI) and effective practices for prevention.
- CO 2: Integrate the knowledge of isolation (Barrier and reverse barrier) techniques in implementing various precautions.
- CO 3: Demonstrate and practice steps in Hand washing and appropriate use of different types of

SRI SHANMUGHA COLLEGE OF NURSING FOR WOMEN

PPE.

CO 4: Illustrate various disinfection and sterilization methods and techniques.

CO 5: Demonstrate knowledge and skill in specimen collection, handling and transport to optimize the diagnosis for treatment.

CO 6: Incorporate the principles and guidelines of Bio Medical waste management.

CO 7: Apply the principles of Antibiotic stewardship in performing the nurses 'role.

CO 8: Identify patient safety indicators and perform the role of nurse in the patient safety audit process.

CO 9: Apply the knowledge of International Patient Safety Goals (IPSG) in the patient care settings.

CO 10: Identify employee safety indicators and risk of occupational hazards.

CO 11: Develop understanding of the various safety protocols and adhere to those protocols.

PHARMACOLOGY - I

.

On completion of the course, the students will be able to

CO 1: Describe pharmacodynamics and pharmacokinetics.

CO 2: Review the principles of drug calculation and administration.

CO 3: Explain the commonly used antiseptics and disinfectants.

CO 4: Describe the pharmacology of drugs acting on the GI system.

CO 5: Describe the pharmacology of drugs acting on the respiratory system.

CO 6: Describe drugs used in the treatment of cardiovascular and blood disorders.

CO 7: Explain the drugs used in the treatment of endocrine system disorders.

CO 8: Describe the drugs acting on skin and drugs used to treat communicable diseases.

PATHOLOGY - I

On completion of the course, the students will be able to

CO 1: Apply the knowledge of pathology in understanding the deviations from normal to abnormal pathology.

CO 2: Rationalize the various laboratory investigations in diagnosing pathological disorders.

CO 3: Demonstrate the understanding of the methods of collection of blood, body cavity fluids, urine and feces for various tests.

SRI SHANMUGHA COLLEGE OF NURSING FOR WOMEN

Approved by Government of Tamilnadu & TNNMC, Approved by Indian Nursing Council, New Delhi

- CO 4: Apply the knowledge of genetics in understanding the various pathological disorders.
- CO 5: Appreciate the various manifestations in patients with diagnosed genetic abnormalities.
- CO 6: Rationalize the specific diagnostic tests in the detection of genetic abnormalities.
- CO 7: Demonstrate the understanding of various services related to genetics.

ADULT HEALTH NURSING - I WITH INTEGRATED PATHOPHYSIOLOGY (including BCLS module)

On completion of Medical Surgical Nursing I course, students will be able to

- CO 1: Explain the etiology, pathophysiology, manifestations, diagnostic studies, treatments and complications of common medical and surgical disorders.
- CO 2: Perform complete health assessment to establish a data base for providing quality patient care and integrate the knowledge of anatomy, physiology and diagnostic tests in the process of data collection.
- CO 3: Identify nursing diagnoses, list them according to priority and formulate nursing care plan.
- CO 4: Perform nursing procedures skillfully and apply scientific principles while giving comprehensive nursing care to patients.
- CO 4: Integrate knowledge of pathology, nutrition and pharmacology in caring for patients experiencing various medical and surgical disorders.
- CO 5: Identify common diagnostic measures related to the health problems with emphasis on nursing assessment and responsibilities.
- CO 6: Demonstrate skill in assisting/performing diagnostic and therapeutic procedures.
- CO 7: Demonstrate competencies/skills to patients undergoing treatment for medical surgical disorders.
- CO 8: Identify the drugs used in treating patients with medical surgical conditions.
- CO 9: Plan and give relevant individual and group education on significant medical surgical topics.
- CO 10: Maintain safe environment for patients and the health care personnel in the hospital.
- CO 11: Integrate evidence-based information while giving nursing care to patients.

CLINICAL PRACTICUM

On completion of the course, The students will be competent to:

- CO 1: Utilize the nursing process in providing care to the sick adults in the hospital:
 - a. Perform complete health assessment to establish a data base for providing quality patient care.
 - b. Integrate the knowledge of diagnostic tests in the process of data collection.

- c. Identify nursing diagnoses and list them according to priority.
- d. Formulate nursing care plan, using problem solving approach.
- e. Apply scientific principles while giving nursing care to patients.
- f. Perform nursing procedures skillfully on patients.
- g. Establish/develop interpersonal relationship with patients and family members.
- h. Evaluate the expected outcomes and modify the plan according to the patient needs.

CO 2: Provide comfort and safety to adult patients in the hospital.

CO 3: Maintain safe environment for patients during hospitalization.

CO 4: Explain nursing actions appropriately to the patients and family members.

CO 5: Ensure patient safety while providing nursing procedures.

CO 6: Assess the educational needs of the patient and their family related to medical and surgical disorders and provide appropriate health education to patients.

CO 7: Provide pre, intra and post-operative care to patients undergoing surgery.

CO 8: Integrate knowledge of pathology, nutrition and pharmacology for patients experiencing various medical and surgical disorders.

CO 9: Integrate evidence-based information while giving nursing care to patients.

CO 10: Demonstrate the awareness of legal and ethical issues in nursing practice.

PHARMACOLOGY - II

Including Fundamentals of Prescribing Module

On completion of the course, the students will be able to

CO 1: Explain the drugs used in the treatment of ear, nose, throat and eye disorders.

CO 2: Explain the drugs used in the treatment of urinary system disorders.

CO 3: Describe the drugs used in the treatment of nervous system disorders.

CO 4: Explain the drugs used for hormonal replacement and for the pregnant women during antenatal, intra natal and postnatal period.

CO 5: Explain the drugs used to treat emergency conditions and immune disorders.

CO 6: Discuss the role and responsibilities of nurses towards safe administration of drugs used to treat disorders of various systems with basic understanding of pharmacology.

CO 7: Demonstrate understanding about the drugs used in alternative system of medicine.

CO 8: Demonstrate understanding about the fundamental principles of prescribing.

PATHOLOGY - II AND GENETICS

On completion of the course, the students will be able to

- CO 1: Apply the knowledge of pathology in understanding the deviations from normal to abnormal pathology
- CO 2: Rationalize the various laboratory investigations in diagnosing pathological disorders
- CO 3: Demonstrate the understanding of the methods of collection of blood, body cavity fluids, urine and feces for various tests
- CO 4: Apply the knowledge of genetics in understanding the various pathological disorders
- CO 5: Appreciate the various manifestations in patients with diagnosed genetic abnormalities
- CO 6: Rationalize the specific diagnostic tests in the detection of genetic abnormalities.
- CO 7: Demonstrate the understanding of various services related to genetics.

ADULT HEALTH NURSING - II WITH INTEGRATED PATHOPHYSIOLOGY including Geriatric Nursing AND PALLIATIVE CARE MODULE

At the completion of Adult Health Nursing II course, students will

- CO 1: Explain the etiology, pathophysiology, manifestations, diagnostic studies, treatments and complications of selected common medical and surgical disorders.
- CO 2: Perform complete health assessment to establish a data base for providing quality patient care and integrate the knowledge of diagnostic tests in the process of data collection.
- CO 3: Identify diagnoses, list them according to priority and formulate nursing care plan.
- CO 4: Perform nursing procedures skillfully and apply scientific principles while giving comprehensive nursing care to patients.
- CO 5: Integrate knowledge of anatomy, physiology, pathology, nutrition and pharmacology in caring for patients experiencing various medical and surgical disorders.
- CO 6: Identify common diagnostic measures related to the health problems with emphasis on nursing assessment and responsibilities.
- CO 7: Demonstrate skill in assisting/performing diagnostic and therapeutic procedures.
- CO 8: Demonstrate competencies/skills to patients undergoing treatment for medical surgical disorders.
- CO 9: Identify the drugs used in treating patients with selected medical surgical conditions.
- CO 10: Plan and provide relevant individual and group education on significant medical surgical topics.
- CO 11: Maintain safe environment for patients and the health care personnel in the hospital.

SRI SHANMUGHA COLLEGE OF NURSING FOR WOMEN

Approved by Government of Tamilnadu & TNNMC; Approved by Indian Nursing Council, New Delhi

www.shanmughanursing.edu.in | Phone : 04283 262925, 261899, 262922

CLINICAL PRACTICUM

The students will be competent to

CO 1: Utilize the nursing process in providing care to the sick adults in the hospital

- a. Perform complete health assessment to establish a data base for providing quality patient care.
- b. Integrate the knowledge of diagnostic tests in patient assignment.
- c. Identify nursing diagnoses and list them according to priority.
- d. Formulate nursing care plan, using problem solving approach.
- e. Apply scientific principles while giving nursing care to patients.
- f. Develop skill in performing nursing procedures applying scientific principle.
- g. Establish/develop interpersonal relationship with patients and family members.
- h. Evaluate the expected outcomes and modify the plan according to the patient needs.

CO 2: Provide comfort and safety to adult patients in the hospital.

CO 3: Maintain safe environment for patients during hospitalization.

CO 4: Explain nursing actions appropriately to the patients and family members.

CO 5: Ensure patient safety while providing nursing procedures.

CO 6: Assess the educational needs of the patient and their family related to medical and surgical disorders and provide appropriate health education to patients.

CO 7: Provide pre, intra and post-operative care to patients undergoing surgery.

CO 8: Integrate knowledge of pathology, nutrition and pharmacology for patients experiencing selected medical and surgical disorders.

CO 9: Integrate evidence-based information while giving nursing care to patients.

CO 10: Demonstrate the awareness of legal and ethical issues in nursing practice.

PROFESSIONALISM, PROFESSIONAL VALUES & ETHICS INCLUDING BIOETHICS

On completion of this course, the students will be able to

CO 1: Describe profession and professionalism.

CO 2: Identify the challenges of professionalism.

CO 3: Maintain respectful communication and relationship with other health team members, patients and society.

CO 4: Demonstrate professional conduct.

CO 5: Describe various regulatory bodies and professional organizations related to nursing.

CO 6: Discuss the importance of professional values in patient care.

CO 7: Explain the professional values and demonstrate appropriate professional values in nursing practice.

CO 8: Demonstrate and reflect on the role and responsibilities in providing compassionate care in the healthcare setting.

CO 9: Demonstrate respect, human dignity and privacy and confidentiality to self, patients and their caregivers and other health team members.

CO 10: Advocate for patients' wellbeing, professional growth and advancing the profession.

CO 11: Identify ethical and bioethical concerns, issues and dilemmas in nursing and healthcare.

CO 12: Apply knowledge of ethics and bioethics in ethical decision making along with health team members.

Protect and respect patient's rights.

CHILD HEALTH NURSING - I

On completion of the course, the students will be able to

CO 1: Develop understanding of the history and modern concepts of child health and child-care.

CO 12: Explore the national child welfare services, national programs and legislation in the light of National Health Policy 2017.

CO 12: Describe the role of preventive pediatrics and perform preventive measures towards accidents.

CO 12: Participate in national immunization programs/Universal Immunization Program (UIP).

CO 12: Identify the developmental needs of children and provide parental guidance.

CO 12: Describe the principles of child health nursing and perform child health nursing procedures.

CO 12: Demonstrate competencies in newborn assessment, planning and implementation of care to normal and high-risk newborn including neonatal resuscitation.

CO 12: Apply the principles and strategies of Integrated management of neonatal and childhood

illness (IMNCI).

CO 12: Apply the knowledge of pathophysiology and provide nursing care to children with respiratory system disorders.

CO 12: Identify and meet childhood emergencies and perform child CPR.

CHILD HEALTH NURSING - I & II CLINICAL (3 Credits –

240 hours)

On completion of the course, the students will be able to

CO 1: Perform assessment of children: health, developmental & anthropometric.

CO 2: Provide nursing care to children with various medical disorders.

CO 3: Provide pre & postoperative care to children with common pediatric surgical conditions/malformation.

CO 4: Perform immunization as per NIS.

CO 5: Provide nursing care to critically ill children.

CO 6: Give health education/nutritional education to parents.

CO 7: Counsel parents according to identified counseling needs.

MENTAL HEALTH NURSING - I

On completion of the course, the students will be competent to

CO 1: Trace the historical development of mental health nursing and discuss its scope.

CO 2: Identify the classification of the mental disorders.

CO 3: Develop basic understanding of the principles and concepts of mental health nursing.

CO 4: Apply the Indian Nursing Council practice standards for psychiatric mental health nursing in supervised clinical settings.

CO 5: Conduct mental health assessment.

CO 6: Identify and maintain therapeutic communication and nurse patient relationship.

CO 7: Demonstrate knowledge of the various treatment modalities and therapies used in mental disorders.

CO 7: Apply nursing process in delivering care to patients with mental disorders.

CO 8: Provide nursing care to patients with schizophrenia and other psychotic disorders based on assessment findings and treatment/therapies used.

CO 9: Provide nursing care to patients with mood disorders based on assessment findings and treatment/therapies used.

CO 10: Provide nursing care to patients with neurotic disorders based on assessment findings and treatment/ therapies used.

CLINICAL PRACTICUM MENTAL HEALTH NURSING - I & II

PRACTICE COMPETENCIES: On completion of the course, the students will be able to:

- CO 1: Assess patients with mental health problems/disorders
- CO 2: Observe and assist in various treatment modalities or therapies
- CO 3: Counsel and educate patients and families
- CO 4: Perform individual and group psycho education
- CO 5: Provide nursing care to patients with mental health problems/disorders
- CO 6: Motivate patients in the community for early treatment and follow up
- CO 7: Observe the assessment and care of patients with substance abuse disorders in de addiction centre.

On completion of the course, the students will be able to

- CO 1: Explore the evolution of public health in India and community health nursing
- CO 2: Explain the concepts and determinants of health
- CO 3: Identify the levels of prevention and health problems of India
- CO 4: Develop basic understanding about the health care planning and the present health care delivery system in India at various levels
- CO 4: Locate the significance of primary health care and comprehensive primary health care as part of current health care delivery system focus
- CO 5: Discuss health care policies and regulations in India
- CO 6: Demonstrate understanding about an overview of environmental science, environmental health and sanitation
- CO 7: Demonstrate skill in nutritional assessment for different age groups in the community and provide appropriate nutritional counseling
- CO 8: Provide health education to individuals and families applying the principles and techniques of behavior change appropriate to community settings
- CO 9: Describe community health nursing approaches and concepts
- CO 10: Describe the role and responsibilities of community health nursing personnel

CO 11: Utilize the knowledge and skills in providing comprehensive primary health care across the life span at various settings

CO 12: Make effective home visits applying principles and methods used for home visiting

CO 13: Use epidemiological approach in community diagnosis

CO 14: Utilize the knowledge of epidemiology, epidemiological approaches in caring for people with communicable and non-communicable diseases

CO 1: Investigate an epidemic of communicable diseases

CO 2: Assess, diagnose, manage and refer clients for various communicable and non-communicable diseases appropriately at the primary health care level

CO 3: Identify and perform the roles and responsibilities of nurses in implementing various national health programs in the community for the prevention, control and management of communicable and non-communicable diseases CO 1: CO 4: particularly in screening, identification, primary management and referral to a health facility/First Referral Unit (FRU)

EDUCATIONAL

TECHNOLOGY/NURSING

EDUCATION

On completion of the course, the students will be competent to

CO 1: Develop basic understanding of theoretical foundations and principles of teaching and learning

CO 2: Identify the latest approaches to education and learning

CO 3: Initiate self- assessment to identify one's own learning styles

CO 4: Demonstrate understanding of various teaching styles that can be used, based on the learners' readiness and generational needs

CO 5: Develop understanding of basics of curriculum planning, and organizing

CO 6: Analyze and use different teaching methods effectively that are relevant to student population and settings

CO 7: Make appropriate decisions in selection of teaching learning activities integrating basic principles

CO 8: Utilize active learning strategies that enhance critical thinking, team learning and collaboration

CO 9: Engage in team learning and collaboration through inter professional education

CO 10: Integrate the principles of teaching and learning in selection and use of educational media/technology

CO 11: Apply the principles of assessment in selection and use of assessment and evaluation

strategies

CO 12: Construct simple assessment tools/tests integrating cognitive, psychomotor and affective domains of learning that can measure knowledge and competence of students

CO 13: Develop basic understanding of student guidance through mentoring and academic advising

CO 14: Identify difficult situations, crisis and disciplinary/grievance issues experienced by students and provide appropriate counseling

CO 15: Engage in ethical practice in educational as well as clinical settings based on values, principles and ethical standards

CO 16: Develop basic understanding of evidence-based teaching practices

INTRODUCTION TO FORENSIC NURSING AND INDIAN

LAWS

On completion of the course, the students will be able to

CO 1: Identify forensic nursing as an emerging specialty in healthcare and nursing practice

CO 2: Explore the history and scope of forensic nursing practice

CO 3: Identify forensic team, role and responsibilities of forensic nurse in total care of victim of violence and in preservation of evidence

CO 4: Develop basic understanding of the Indian judicial system and legal procedures

CHILD HEALTH NURSING - II

On completion of the course, the students will be able to

CO 1: Apply the knowledge of pathophysiology and provide nursing care to children with Cardiovascular, GI, genitourinary, nervous system disorders, orthopedic disorders, eye, ear and skin disorders and communicable diseases

CO 2: Provide care to children with common behavioural, social and psychiatric problems
Manage challenged children

CO 3: Identify the social and welfare services for challenged children

MENTAL HEALTH NURSING - II

On completion of the course, the students will be able to

CO 1: Apply nursing process in providing care to patients with substance use disorders, and personality and sexual disorders.

CO 2: Apply nursing process in providing care to patients with behavioural and emotional disorders occurring during childhood and adolescence.

CO 3: Apply nursing process in providing care to patients with organic brain disorders.

CO 4: Identify and respond to psychiatric emergencies.

Carry out crisis interventions during emergencies under supervision.

CO 5: Perform admission and discharge procedures as per MHCA 2017.

CO 6: Explore the roles and responsibilities of community mental health nurse in delivering community mental health services.

NURSING MANAGEMENT AND LEADERSHIP

On completion of the course, the students will be able to

CO 1: Analyze the health care trends influencing development of nursing services and education in India.

CO 2: Describe the principles, functions and process of management applied to nursing.

CO 3: Develop basic understanding and beginning competencies in planning and organizing nursing services in a hospital.

CO 4: Apply the concept of human resource management and identify the job description for all categories of nursing personnel including in service education.

CO 5: Discuss the principles and methods of staffing and scheduling in an individual hospital/nursing unit.

CO 6: Develop skill in management of materials and supplies including inventory control.

CO 7: Develop team working and inter professional collaboration competencies.

CO 7: Identify effective leadership styles and develop leadership competencies.

CO 8: Utilize the knowledge of principles and line of control and participate in quality management and evaluation activities.

CO 9: Utilize the knowledge related to financial planning in nursing services and education during budgetary process.

CO 10: Apply the knowledge of nursing informatics in maintenance of records and reports relevant to patient information, nursing care and progress.

CO 11: Demonstrate understanding of the INC guidelines for establishment and accreditation of educational institutions in terms of faculty norms, physical infrastructure and clinical facilities.

CO 12: Demonstrate beginning competencies in planning, organizing and staffing at college including implementation and evaluation of curriculum.

CO 13: Identify the legal issues and laws relevant to nursing practice and education.

CO 14: Apply the knowledge and utilize the various opportunities for professional advancement.

MIDWIFERY/OBSTETRICS AND GYNECOLOGY (OBG) NURSING - I

Including SBA module

On completion of the program, the students will be able to

CO 1: Demonstrate professional accountability for the delivery of nursing care as per INC standards/ICM competencies that are consistent with moral, altruistic, legal, ethical, regulatory and humanistic principles in midwifery practice.

CO 2: Communicate effectively with individuals, families and professional colleagues fostering mutual respect and shared decision making to enhance health outcomes.

CO 3: Recognize the trends and issues in midwifery and obstetrical nursing.

CO 4: Review and describe the anatomy and physiology of human reproductive system and conception.

CO 5: Describe and apply physiology in the management of normal pregnancy, birth and puerperium.

CO 6: Demonstrate competency in providing respectful and evidence based maternity care for women during the antenatal, intranatal and postnatal period.

CO 7: Uphold the fundamental human rights of individuals when providing midwifery care.

CO 8: Promote physiologic labour and birth, and conduct normal childbirth.

CO 9: Provide evidence based essential newborn care.

CO 10: Apply nursing process approach in caring for women and their families.

CO 11: Describe the methods of contraception and role of nurse/midwife in family welfare services.

CO 12: Recognize the importance of and actively participate in family welfare programs.

CO 13: Provide youth friendly health services and care for women affected by gender based violence.

MIDWIFERY/OBSTETRICS AND GYNECOLOGY (OBG) NURSING - I

PRACTICE COMPETENCIES: On completion of the course, the students will be able to:

CO 1: Counsel women and their families on pre-conception care

CO 2: Demonstrate lab tests ex. urine pregnancy test

CO 3: Perform antenatal assessment of pregnant women

CO 4: Assess and care for normal antenatal mothers

CO 5: Assist and perform specific investigations for antenatal mothers

CO 6: Counsel mothers and their families on antenatal care and preparation for parenthood

CO 7: Conduct childbirth education classes

Organize labour room

CO 8: Prepare and provide respectful maternity care for mothers in labour

SRI SHANMUGHA COLLEGE OF NURSING FOR WOMEN

Approved by Government of Tamilnadu & TNNMC, Approved by Indian Nursing Council, New Delhi

Affiliated to The Tamilnadu Dr. M.G.R Medical University, Chennai

Sankari- Tiruchengode Main Road, Pullipalayam, Morur (Po), Sankari(Tk), Salem (dt), Tamilnadu, Pin- 637304

E-mail : principalsrihanmughacon@gmail.com | info@shanmughanursing.edu.in

www.shanmughanursing.edu.in | Phone : 04283 262925, 261899, 262922

- CO 9: Perform per-vaginal examination for a woman in labour if indicated
Conduct normal childbirth with essential newborn care
- CO 10: Demonstrate skills in resuscitating the newborn
- CO 11: Assist women in the transition to motherhood
- CO 12: Perform postnatal and newborn assessment
- CO 13: Provide care for postnatal mothers and their newborn
- CO 14: Counsel mothers on postnatal and newborn care
- CO 15: Perform PPIUCD insertion and removal
- CO 16: Counsel women on family planning and participate in family welfare services
- CO 17: Provide youth friendly health services
- CO 18: Identify, assess, care and refer women affected with gender based violence

MIDWIFERY/OBSTETRICS AND GYNECOLOGY (OBG) NURSING - II

On completion of the course, the students will be able to:

- CO 1: Identify, stabilize and refer antenatal women with complications
- CO 2: Provide care to antenatal women with complications
- CO 3: Provide post abortion care& counselling
- CO 4: Assist in the conduction of abnormal vaginal deliveries and caesarean section.
- CO 5: Demonstrate skills in resuscitating the newborn
- CO 6: Assist and manage complications during labour
- CO 7: Identify postnatal and neonatal complications, stabilize and refer them
- CO 8: Provide care for high risk antenatal, intranatal and postnatal women and their families using nursing process approach
- CO 9: Provide care for high risk newborn
- CO 10: in advanced clinical procedures in midwifery and obstetric nursing
- CO 11: Provide care for women during their non-childbearing period.
- CO 12: Assess and care for women with gynecological disorders
- CO 13: Demonstrate skills in performing and assisting in specific gynecological procedures
- CO 14: Counsel and care for couples with infertility

COMMUNITY HEALTH NURSING – II

COMPETENCIES: On completion of the course, the students will be able to

SRI SHANMUGHA COLLEGE OF NURSING FOR WOMEN

Approved by Government of Tamilnadu & TNNMC, Approved by Indian Nursing Council, New Delhi

Affiliated to The Tamilnadu Dr. M.G.R Medical University, Chennai

Sankari- Tiruchengode Main Road, Pullipalayam, Morur (Po), Sankari(Tk), Salem (dt), Tamilnadu, Pin- 637304

E-mail : principalsrihanmughacon@gmail.com | info@shanmughanursing.edu.in

www.shanmughanursing.edu.in | Phone : 04283 262925, 261899, 262922

CO 1: Demonstrate beginning practice competencies/skills relevant to provide comprehensive primary health care/community- based care to clients with common diseases and disorders including emergency and first aid care at home/clinics/centres as per predetermined protocols/drug standing orders approved by MOH&FW

CO 2: Provide maternal, newborn and child care, and reproductive health including adolescent care in the urban and rural health care settings

CO 3: Describe the methods of collection and interpretation of demographic data

Explain population control and its impact on the society and describe the approaches towards limiting family size

CO 4: Describe occupational health hazards, occupational diseases and the role of nurses in occupational health programs

Identify health problems of older adults and provide primary care, counseling and supportive health services

CO 5: Participate in screening for mental health problems in the community and providing appropriate referral services

CO 6: Discuss the methods of data collection for HMIS, analysis and interpretation of data

CO 7: Discuss about effective management of health information in community diagnosis and intervention

CO 8: Describe the management system of delivery of community health services in rural and urban areas

CO 9: Describe the leadership role in guiding, supervising, and monitoring the health services and the personnel at the PHCs, SCs and community level including financial management and maintenance of records & reports

CO 10 Describe the roles and responsibilities of Mid-Level Health Care Providers (MHCPs) in Health Wellness Centers (HWCs)

CO 11: Identify the roles and responsibilities of health team members and explain their job description

CO 12: Demonstrate initiative in preparing themselves and the community for disaster preparedness and management

CO 13: Demonstrate skills in proper bio-medical waste management as per protocols

CO 14: Explain the roles and functions of various national and international health agencies

NURSING RESEARCH AND STATISTICS

On completion of the course, students will be competent to

CO 1: Identify research priority areas

SRI SHANMUGHA COLLEGE OF NURSING FOR WOMEN

Approved by Government of Tamilnadu & TNNMC; Approved by Indian Nursing Council, New Delhi

Affiliated to The Tamilnadu Dr. M.G.R Medical University, Chennai

- CO 2: Formulate research questions/problem statement/hypotheses
- CO 3: Review related literature on selected research problem and prepare annotated bibliography
- CO 4: Prepare sample data collection tool
- CO 5: Analyze and interpret the given data
- CO 6: Practice computing, descriptive statistics and correlation
- CO 7: Draw figures and types of graphs on given select data
- CO 8: Develop a research proposal
- CO 9: Plan and conduct a group/individual research project

MIDWIFERY/OBSTETRIC AND GYNECOLOGY NURSING - II

Including Safe Delivery App Module

COMPETENCIES: On completion of the course, the students will be able to:

- CO 1: Describe the assessment, initial management, referral and respectful maternity care of women with high risk pregnancy.
- CO 2: Demonstrate competency in identifying deviation from normal pregnancy.
- CO 3: Describe the assessment, initial management, referral and nursing care of women with high risk labour.
- CO 4: Assist in the conduction of abnormal vaginal deliveries and caesarean section.
- CO 5: Describe the assessment, initial management, referral and nursing care of women with abnormal postnatal conditions.
- CO 6: Demonstrate competency in the initial management of complications during the postnatal period.
- CO 7: Demonstrate competency in providing care for high risk newborn.
- CO 8: Apply nursing process in caring for high risk women and their families.
- CO 9: Describe the assessment and management of women with gynecological disorders.
- CO 10: Demonstrate skills in performing and assisting in specific gynecological procedures.
- CO 11: Describe the drugs used in obstetrics and gynecology.
- CO 12: Counsel and care for couples with infertility.
- CO 13: Describe artificial reproductive technology.
